

What Participants Said About iRi's “Learn to Enable Learning” 2009 Critical Thinking Summer Seminars

iRi's annual Critical Thinking Summer Seminars provide educators with intensive professional learning experiences based on the work of world-renowned cognitive psychologist Reuven Feuerstein.

The “**Learn 2 Enable Learning**” 2009 summer seminar series was held in Troy Michigan, July 27 through August 7. Participants included teachers, administrators, therapists, and parents interested in learning and practicing ‘tools’ and techniques for improving thinking, problem solving and reasoning skills in their children. A special keynote webcast was presented by world-renowned Cognitive Psychologist Reuven Feuerstein during the first week of training. Here is what participants shared about their learning experience.

“This seminar and finding the Feuerstein Instrumental Enrichment (FIE) program is the ‘answer to my prayers’. I am going home with a POT of gold. It’s been a wonderful experience and a privilege to be part of this never ending adventure.”

“Fabulous courses! Thank you. I look forward to applying all that I have learned.”

“I enjoyed Shannon’s teaching style. I learned as much about teaching from her modeling and language as I did from the instruments! Dr. Meir and Sandy Garr were excellent instructors as well. AND REUVEN FEUERSTEIN - WOW!”

“I enjoyed every aspect of the presentations.”

“The webcast with Dr. Feuerstein was priceless!”

“Very easy to understand and could relate to case studies.”

“Thank you for sharing such valuable information and training with me. I feel very privileged to have had this opportunity which will undoubtedly help me in my work with children.”

“The courses and the sharing among educators has truly been a life changing experience!”

“Thank you for an enlightening 2 weeks. I am glad I took the full 2 weeks of courses so I could see how the whole program works. The passion of the trainers is very evident. The whole experience was amazing.”

“I was inspired and motivated. Please come to our school to train our staff and model a lesson.”
