

(July 2008) iRi is excited to announce the second edition of iRi CEO James Bellanca's Best Seller, Developing Professional Development for Change: A Guide for Improving Classroom Instruction. Originally an iRi/Skylight publication, this totally revised edition updates practices, research, and the basic framework for systematic change in professional development for education. This new edition is being published by Corwin Press and will be available September 2, 2008.

The book's new framework relies on the theories of renowned cognitive psychologist, Reuven Feuerstein as the key for facilitating practical but systemic changes in teaching and learning.

iRi is offering a special 20% discount for orders placed through our store prior to September 2, 2008. Please contact orders@iriinc.us to place your order.

Implement professional development practices that generate systemic change to improve teaching and learning!

Enriching the professional lives of teachers is not only an art, but a science. This resource provides a research-validated road map for staff developers and principals to promote positive student outcomes and increase school performance through effective professional development.

The new edition offers practical methods for designing staff development experiences that facilitate a high level of learning transfer into the classroom. Administrators and staff developers will find guidelines for professional development that fosters meaningful cognitive connections for participants and supports continuous academic improvement and lifelong learning for students. This substantially updated revision includes:

- A three-stage framework that helps ensure sustainable results
- Emphasis on mediated learning experiences and skillful coaching for adult learners
- A focus on the site-based professional developer's role as a champion for change
